**GECKO | FILLET WELDING TRACTOR**

Gecko is a portable mini fillet welder designed to produce consistent high-quality welds. It features 4-wheel drive system with magnetic traction and a control loop feedback mechanism which provides speed stabilization in all welding positions.

Constant, continuous and repeatable travel speed enables weld bead geometry that is exact to the required specifications, thus reducing costly over welding and decreasing filler metal usage, substantially.

Lots of optional accessories make Gecko fit for a specific use including cutting and welding of stainless steel constructions.

GECKO compact welding carriage weighs only 8 kg (17 lbs).

**Applications:**
- Trailer manufacturing
- Truck tanks
- Oil tanks
- Water storage tanks
- Transformers
- Shipyards
- Any application demanding a long, continuous fillet weld
